

Document Number	Revision	Revision Date	Product Code Beginning With
L629	Rev. G	02/2021	O - JHA156 A - JHA356

**Ⓢ CAUTION:** Indicates staked threads. Stake mark must be removed prior to disassembly. Failure to do so may result in damage to parts.

Some cylinder stop rings are assembled with Loctite material on threads. Enerpac suggests staking threads when reassembling.

Figure 1

**Note: See Page 2 for parts list.**

(*) Notes	
13	Not available as a service item. Order complete jack assembly.
14	Early production models used a plunger and saddle combination. This has been replaced by a 1-piece solid plunger design.
17	Seal threads with Loctite #69-41. Torque to 18-22 ft-lbs.
