

S3A Shown

Sustaining Capacity .....► 3 tons  
Operable Rise .....► 1 in.  
Weight .....► 3.3 lbs.

- Perfect for close quarters and tight spaces.
- Supports 3 tons and has a 1 in. stroke for adjustments.
- Closed height of 3 in.
- Serrated cap rotates and prevents load slippage.

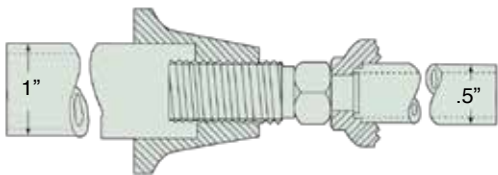

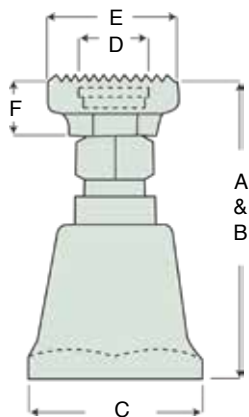

**CE COMPLIANT**

Our Jack design specifications meet or exceed ANSI /ASME B30.1 Safety Standards.

**LOAD CAP**

Steel serrated load cap prevents the load from possible slippage.

▲ The spreader jack can easily be extended by fitting a .5 in. diameter pipe in the cap well and a 1 in. diameter pipe in the housing well.

The S3A, with its low profile and small footprint was the perfect solution to level the bed of this milling machine. ▼

Model	Sustaining Capacity (tons)	Operable Rise (in)	Dimensions (in)						Weight (tons)
			A	B	C	D	E	F	
			Minimum Height	Maximum Height	Base	Well Diameter	Cap Width	Cap Height
